Social & Community Activities

USA Dance chapters create dance opportunities for local citizens by organizing affordable social dances, dance lessons and workshops. Chapter members often present dance education and live demonstrations in nursing homes, retirement homes, hospitals, schools, shopping malls, and other public places, while striving to educate the public regarding the health and social benefits of ballroom dancing. The goal of each chapter is to serve the national mission on a grassroots level, as a leader and a motivation for ballroom dance activities in the community, colleges and schools. A significant portion of USA Dance's resources are devoted to promoting, organizing and supporting ballroom dancing programs for youth and collegiate dancers.
